Election

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Requirement for Restriction mailed May 06, 2003, Claim Group II (claims 11-20, drawn to single compounds) is hereby elected. The single compound whose structure is shown below and is designated Compound **10a** in Table 1 at page 40 is hereby elected as the single species.

Claims 11, 12, 13,14, 15, 16, 17,18, 19,and 20 read upon the elected compound.

Supplemental Information Disclosure

An Information Disclosure Statement, art and PTO Form 1449 were filed for this application on May 7, 2003. It has since been noted that a published paper by the inventors was inadvertently omitted from the papers and art that accompanied that submission. That paper, Yu et al., *J. Comb. Chem.*, 2002, 4(5):484-490 was published after the filing of this application. A copy of the paper is enclosed and the paper is noted on the enclosed Form PTO 1449.

No inferences should be drawn that the attached list represents a comprehensive investigation, or that any material disclosed is equivalent to the subject invention. In addition, none of the documents that have publication dates prior to the priority date of the above application anticipate the invention in this application.

The cited documents disclose numerous specific features. There has been no attempt to list each and every feature disclosed by each document. The Examiner is requested to review the documents and determine the extent of the

materiality of the document disclosures with respect to the present invention.

The discussion of any art and the citation of any document herein is not to be construed as an admission that the art or document disclosure is necessarily within the invention field of endeavor, that the art or document disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by the patent law with respect to the instant invention and application.

Also, there is reserved the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and documents recited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

The recitation herein of the art and documents is not to be construed as an assertion that more pertinent art could not possibly be in existence.

No further fee or petition is believed to be necessary. However, should any further fee be needed, please

charge our Deposit Account No. 23-0920, and deem this paper to be a required petition.

The Examiner is requested to phone the undersigned should any questions arise that can be dealt with over the phone to expedite this prosecution.

Respectfully submitted,

By 
Edward P. Gamson, Reg. No. 29,381
